EXPERIENCE

Software Developer | Pentadata Inc

Jan 2025 – Present, Freelance

- ▶ Develop and maintain various Pentadata products across the full stack, building robust user-facing features with React and scalable backend services using Python.
- ▶ Collaborate with cross-functional teams to design, implement, and ship new product features aligned with business objectives.
- ▶ Contribute to code reviews, system architecture discussions, and continuous improvement of development workflows.

Front-End Developer | Terrace Metrics

Dec 2023 – Aug 2024 USA (Freelance)

- ▶ Fully rebuilt the company website using updated React and Node.js versions, improving performance and maintainability.
- ▶ Upgraded the codebase to ES6 standards and adopted modern React Hooks, resulting in measurable increases in user engagement.
- ▶ Improved site responsiveness and cross-browser/mobile compatibility for a seamless user experience.
- ▶ Optimised front-end performance, significantly reducing page load times and boosting user satisfaction.

Software Developer & Product Manager | Thousandfold Technology Solutions

Apr 2023 – Oct 2023 · USA (Freelance)

- ▶ Collaborated with engineering teams to develop and enhance products, define strategies, and create product roadmaps.
- ▶ Applied Agile Methodologies to gather and prioritise requirements, translating them into actionable user stories.
- ▶ Identified market trends and customer needs through competitive research; planned and executed product launches coordinating with marketing, sales, and support.
- ▶ Monitored product performance and drove improvements using analytics and KPIs (JIRA, Google Analytics).

Web Developer & Assistant Product Manager | PE Connection Inc

Aug 2021 – Mar 2023 USA (Freelance) — DealMtrx (FinTech)

- ▶ Built responsive UIs using ReactJS, TypeScript, HTML5, and CSS3 with reusable, maintainable component architecture.
- ▶ Developed and maintained RESTful APIs, enabling seamless communication between web apps and third-party services.
- ▶ Sole owner of end-to-end testing with Cypress; documented requirements, performed feature and regression testing to ensure high-quality releases.
- ▶ Communicated with stakeholders for product planning; co-created strategy and roadmap with the CTO.
- ▶ Tracked and resolved bug reports using JIRA throughout the full development cycle.

Freelance Web Developer | SnapEDA

Jan 2021 – Aug 2021, USA (Freelance)

- ▶ As the sole developer, built a JavaScript/React-based search and embed tool from scratch, allowing partner sites to integrate SnapEDA's CAD model search, part views, and 2D/3D model downloads.
- ▶ Created a Google Tag Manager extension enabling partner companies to easily embed the product without engineering overhead.

Software Developer | Samcom Technobrain

Jun 2019 – Oct 2020 India

- ▶ Built frontend interfaces using ReactJS, React Native, HTML, and CSS; integrated backend APIs via Python (Django) and Node.js.
- ▶ Gathered and documented client requirements in JIRA; maintained direct communication with clients to translate needs into deliverables.
- ▶ Created Python automation scripts that improved project efficiency; awarded Team Player recognition.

Python Developer (Intern) | Agile Infoways

Jan 2019 – Jun 2019 India

- ▶ Developed backend APIs using the Django framework across several small projects, forming the foundation for a full transition into software development.

EDUCATION

Bachelor of Science — Physics

Jun 2012 – Apr 2015

St Xavier's College, India · Minor: Electronics, Mathematics

CERTIFICATIONS

Certified Scrum Product Owner (CSPO)

Issued March 2023

Scrum Alliance

SKILLS

Languages: JavaScript, Python, TypeScript, SQL

Front-End: ReactJS, HTML5, CSS3, Responsive Design

Back-End: Node.js, Django, RESTful APIs

Testing: Cypress (E2E), Feature & Regression Testing

Databases: MongoDB, SQL

Tools & DevOps: Git, JIRA, CI/CD Pipelines, Docker

Methodologies: Agile, Scrum, Product Management

Soft Skills: Team Leadership, Communication, Problem Solving
